Type · Business cards · Files
Edition November 2026

How we write our name

The name

One word, a capital **S** and a capital **Y**. In running text it is set in the same font and colour as the text around it; the coloured Y belongs to the logo only.

SynaptYon

~~Synaptyon~~ ~~SYNAPTYON~~ ~~Synapt Yon~~ ~~Synapt-Yon~~ ~~SynaptYON~~

The company

SynaptYon SARL in contracts, invoices, letterheads and legal footers.
SynaptYon everywhere else.

Document AI that remembers.

Slogan. Headlines, the front of the business card, the first slide of a deck.

Document Intelligence, end to end

Descriptor. Under the name in email signatures, document footers, the website title.

DOCUMENT INTELLIGENCE

Short descriptor. The line inside the logo with tagline. Always in capitals, only in that logo.

The logo and its space

Smallest logo
30 mm · 120 px

Smallest mark
6 mm · 24 px

The mark
a hexagonal S

Logo with tagline
from 45 mm wide

Mark and wordmark

The logo is the hexagonal S and the word SynaptYon, side by side. Keep them together; use the mark alone only where the name is already written nearby, or space is square (profile pictures, app icons, favicons).

Clear space x

Leave at least **x** free on every side, where x is the height of the capital S in the wordmark. No text, edge or picture inside that space.

Size

Never smaller than 30 mm wide in print or 120 px on screen. Below that, use the mark. The logo with tagline needs 45 mm, so the small line stays readable.

Placement

In letters and reports: top left, 35–45 mm wide, on white. On slides: bottom left or top left, never centred over a photo.

Which logo, on which background

Blue-violet, on white or light
`blue-violet/synaptyon-logo-on-light`

Blue-violet, on dark
`blue-violet/synaptyon-logo-on-dark`

One colour, black
`one-colour/synaptyon-logo-black`

Emerald and gold, on cream or white
`emerald-gold/synaptyon-logo-on-light`

Emerald and gold, on dark
`emerald-gold/synaptyon-logo-on-dark`

One colour, white on any strong colour
`one-colour/synaptyon-logo-white`

Blue-violet is the main palette: the website, slides, letters. **Emerald and gold** is the second palette, for formal or printed pieces. Use one palette per document, never both. Use the one-colour logo where colour is not possible: stamps, engraving, fax, a single-colour print run.

What not to do

✕ Do not stretch or squash it

✕ Do not change its colours

✕ Do not add shadows, outlines or effects

✕ Do not rotate it

✕ Do not use the light-background logo on a strong colour

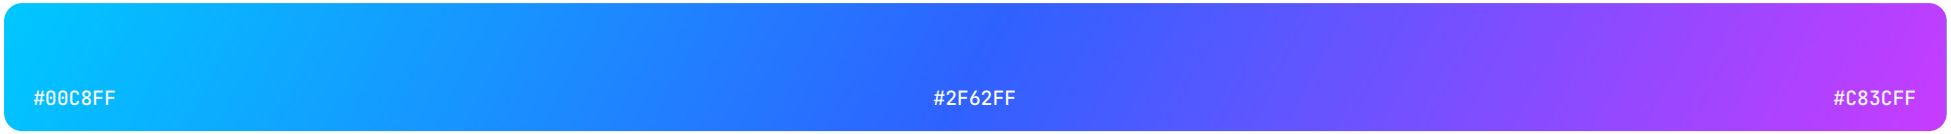

✕ Do not retype the name as a logo

Always place the original files from the kit. Resize by dragging a corner so the proportions stay fixed.

What changed since the last version

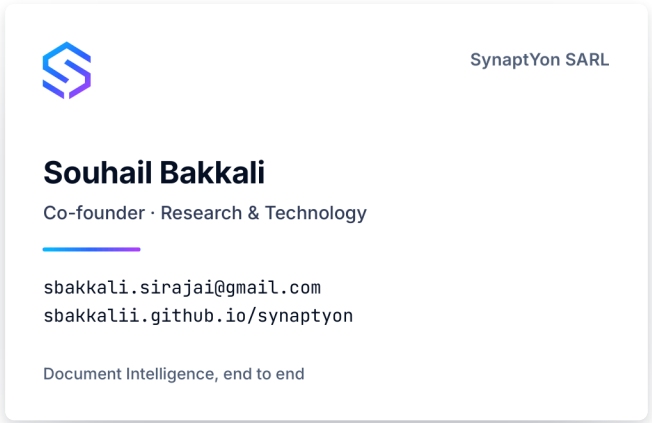

The amendment of 1 March replaces the notice period: three months instead of six.

SOURCE · AMENDMENT, P. 2

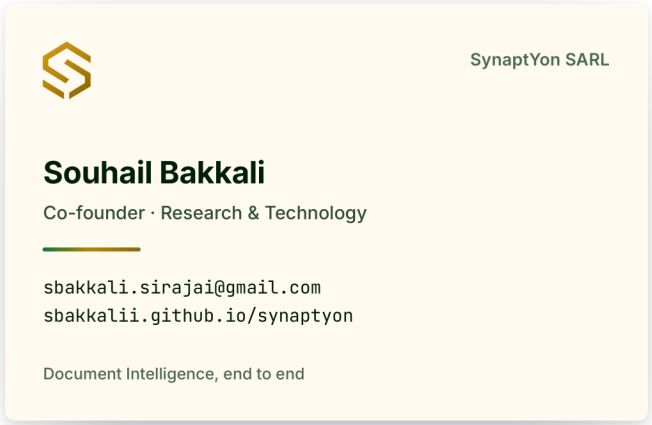

All three are free (SIL Open Font License) at fonts.google.com. Install them on your computer to use them in Word, PowerPoint or Keynote. In Google Docs, look under Fonts → More fonts; if one is missing there, use the fallback shown.

Business cards

Size. 85 × 55 mm, the European standard.

Print file. 91 × 61 mm: 3 mm of bleed on every side, already in the PDF. Page 1 is the front, page 2 the back.

Safe area. All text sits at least 4 mm inside the cut.

Paper. Suggested: 350–400 g/m², matt or soft-touch, printed both sides.

Two palettes. Top: blue-violet. Bottom: emerald and gold. Pick one for the whole team.

Files. `business-cards/synaptyon-business-card-blue-violet-print.pdf` and `…-emerald-gold-print.pdf`. Upload as is to an online printer.

What is in the kit

FILE	USE IT FOR
`logo/…/*-2400px.png`	Word, Google Docs, PowerPoint, Keynote: letterheads, reports, invoices, slides. Transparent background. Insert, then drag a corner to size it.
`logo/…/*-600px.png`	Email signatures and small on-screen uses.
`logo/…/*.svg`	Websites, designers, and Word or PowerPoint 365, which accept SVG and keep it sharp at any size.
`logo/…/*.pdf`	Printers and sign makers: vector, the wordmark is outlined, no font needed.
`logo/…/*-on-light · *-on-dark`	Pick by the background, not by taste: on-light for white or pale paper, on-dark for black, navy or graphite.
`logo/one-colour/`	Black or white only: stamps, engraving, single-colour print.
`logo/social/*-1024px.png`	Profile pictures: LinkedIn, GitHub, email accounts. Square, the mark on the dark brand background.
`business-cards/`	Print PDFs with bleed, and preview images to share before printing.
`synaptyon-brand-guide.pdf`	This guide.

Logos in three groups: `blue-violet` (main), `emerald-gold` (second), `one-colour`. Questions about the brand: sbakkali.sirajai@gmail.com.
